

Finding half (2)

A large rectangular area enclosed by a dashed line, containing five vertical columns of shapes for a cutting activity. Each column consists of 15 identical items:

- Column 1: 15 identical grey octagons.
- Column 2: 15 pairs of identical grey circles, each pair forming a horizontal figure-eight shape.
- Column 3: 15 groups of three identical grey hexagons arranged in a horizontal row.
- Column 4: 15 groups of three identical grey squares arranged in a horizontal row.
- Column 5: 15 identical grey rounded rectangular shapes.
